# **Program Outcomes**

**April 1, 2016 – March 31, 2017**

Dear Community,

The Pathways to Safety team is pleased to share this 10th Annual Program Outcomes Report (a data snapshot) to the community. This report provides a snapshot of the scope of our early intervention activities and documents the impact of our work with Monterey County families. We continue to evaluate every call that comes into the child abuse and neglect hotline for a community based response through Pathways to Safety. In this regard, Monterey County continues to be a leader in Differential Response programming in California. The family engagement and case management services in our community continue to be provided by Door to Hope (Path 2 & Path 3 services) and Community Human Services (Path 1 services). The Action Council continues to be the primary community partner working with Monterey County Department of Social Services Family & Children Services Division to implement Pathways to Safety, with our role focusing on quality assurance, data support, training, evaluation, and model fidelity.

The work we do with families continues to demonstrate strong results! Through the collective efforts of all our partners that comprise the Pathways team – and the families they serve – we continue to enjoy success in keeping kids safe in their homes and out of the child welfare system as well as our ongoing dedication and support of the Core Practice Model Values.

Best regards,

Larry Imwalle  
Executive Director, Action Council
